Pairing a BLUETOOTH compatible device with SSP (Secure Simple Pairing)

1 Using your BLUETOOTH compatible device, search for available Bluetooth devices. Then select the "Alpine CD Receiver", "Alpine Digital Media Receiver" or "Alpine NAVI" for pairing.

2 Turn the Rotary encoder to change the head unit display from "PAIR NO" to "PAIR YES", and then press ENTER.

If "PAIR NO" is selected, the connection will be canceled.

3 If the pairing was successful, "CONNECTED" is displayed for a few seconds. The head unit then returns to its previous state.
